DUAL COMPARTMENT TOOL BACKPACK

Introducing IDEAL® Dual Compartment tool backpack that provides a solution for any tradesman needing to transport tools while still having their hands free. The versatile design includes two compartments that can open to a lay-flat position for flexible use on the floor, bench or hoist position. With an abundance of interior and exterior organizational pockets as well as dedicated space for a laptop and/or tablet. Exterior pockets include a large double slotted front pocket that easily accommodates fish tapes, a side tall-tool carrier that can easily fit tools up to 18 in., mesh water bottle carrier and a nickel plated tape measure holder. The interior includes a wide variety of tiered pockets to hold your screwdrivers, meters, bit holders, power drills, etc. In addition, the backpack contains webbed tool holders for long tools as well as a variety of D-rings to arrange storage or hook work gear.

Constructed from durable fabric with heavy-duty YKK® zippers that can survive the heavy loads of everyday use. The reinforced comfort back and lumbar padding, with airflow design, provides maximum comfort and includes adjustable padded shoulder and chest straps. The heavy-duty abrasion resistant reinforced base with 4 ABS foot pads are designed to protect your tools from the elements without discomfort to your lower back.
